17a. Open 1 17b. Closed 0 17c. Partially Closed 0 Other Activities 0 17d. Total 1

### Meetings and Dates

Purpose	Start	End
The purpose of this meeting was to discuss issues critical to the prevention, control, and management of aquatic nuisance species (ANS). The meeting included several informational sessions including new species occurrences reported in the U.S. Geological Survey database, ballast water management tools, 2018 Asian Carp Action Plan, and outreach efforts to engage the pet trade industry. The meeting had a strong focus on strategic planning; utilizing breakout sessions to evaluate past Task Force and regional panel accomplishments and identify priorities and strategies to further advance the Task Force mission in the revised ANS Task Force Strategic Plan.	06/12/2018	06/14/2018

### Number of Committee Meetings Listed: 1

	Current FY	Next FY
18a(1). Personnel Pmts to Non-Federal Members	\$0.00	\$0.00
18a(2). Personnel Pmts to Federal Members	\$65,000.00	\$90,000.00
18a(3). Personnel Pmts to Federal Staff	\$272,000.00	\$307,000.00
18a(4). Personnel Pmts to Non-Member Consultants	\$0.00	\$0.00
18b(1). Travel and Per Diem to Non-Federal Members	\$0.00	\$0.00

<b>18b(2). Travel and Per Diem to Federal Members</b>	\$12,000.00	\$27,000.00

<b>18b(4). Travel and Per Diem to Non-member Consultants</b>	\$0.00	\$0.00
<b>18c. Other(rents,user charges, graphics, printing, mail, etc.)</b>	\$225.00	\$400.00
<b>18d. Total</b>	\$350,225.00	\$428,900.00
<b>19. Federal Staff Support Years (FTE)</b>	1.80	2.00

**20a. How does the Committee accomplish its purpose?**

The ANS Task Force is the only federally mandated intergovernmental organization solely dedicated to preventing and controlling ANS (also known as aquatic invasive species, or AIS). The ANS Task Force strives to create opportunities and synergies among members and participants by sharing resources, expertise, and ideas across agency and organizational lines. Consistent with its authorizing legislation (the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990, or NANPCA) , the ANS Task Force Federal and ex-officio members develop recommendations and products (e.g., management plans, guidance documents, outreach materials) to prevent and manage AIS for use by Federal agencies with AIS responsibilities. The ANSTF also promotes its national public awareness campaigns (Stop Aquatic Hitchhikers! and Habitattitude) and assists in the development and implementation of State or interstate ANS management plans (44 plans have been approved through FY 2018) and species-specific management/control plans (10 have been approved through FY 2018). These campaigns and plans are central to many Federal government field activities. The ANS Task Force works in conjunction with six regional ANS panels and issue-specific committees to provide a national and regional infrastructure, which continuously coordinates on important ANS issues at Federal, state, and local levels.

**20b. How does the Committee balance its membership?**

The ANS Task Force continues to have a balanced membership with 13 Federal members and 15 ex-officio members representing non-Federal entities. Task Force membership reflects a spectrum of interests impacted by or involved in responding to ANS or affected by the NANCPA. These interests include: fish, wildlife, and other natural resource protection; management and development; environmental protection; agriculture; aquaculture; shipping; recreation; Native Americans; electric power; water supply; Great Lakes and other regional interests; and outreach.

**20c. How frequent and relevant are the Committee Meetings?**

The ANS Task Force typically holds meetings two times per year (Spring and Fall). Meeting agendas for the ANS Task Force are constructed to address priority and/or emerging issues with the intent of informing the ANS Task Force members and allowing

them to determine if action is warranted. Consideration is also given to recommendations from its members, Regional Panels, invited guests, and the public. ANS Task Force decisions are generally reached by consensus and are made at the public meetings, or, when necessary, through publicly announced webinars. The Department of the Interior's advisory committee review resulted in the cancellation of the November 2017 ANSTF meeting; accordingly only 1 meeting was held in FY 2018. Normally, the ANS Task Force meets twice per year, thus lower and staff payments and travel costs are reported for FY 2018.

**20d. Why can't the advice or information this committee provides be obtained elsewhere?**

ANS issues are significant in their breadth and scope, as this area involves all taxa of life and threatens natural ecosystems around the globe. A variety of pathways are capable of transporting species into new environments, including ballast water and hulls of ships, materials associated with organisms in trade, importation of fruits and vegetables, and the international movement of people. Furthermore, multiple efforts are necessary to encompass the various components of ANS management, including prevention, monitoring, removal, restoration, research, and education. Accordingly, management of ANS must occur at a variety of levels and resources must be allocated in a manner that minimizes duplication of efforts. A coordinated effort by all levels of government that includes other interested/impacted parties is essential. The ANS Task Force provides a leadership, advisory, and coordination mechanism at the Federal level, gathering regional, state, tribal, and local input that assists in the effective implementation of the NANPCA. The ANS Task Force is unique in that it is the only legislatively mandated intergovernmental organization solely dedicated to preventing and controlling ANS.

**20e. Why is it necessary to close and/or partially closed committee meetings?**

All meetings and webinars are open to the public.

**21. Remarks**

Federal members and ex-officio members of the Aquatic Nuisance Species (ANS) Task Force who are statutorily designated (The Great Lakes Commission, the Lake Champlain Basin Program, the Cheapeake Bay Program, and the San Francisco Bay Estuary Program) do not have a fixed term of service other than the dates of the charter. Ex-officio members who are not statutorily designated are appointed for 3-year terms. In accordance with 16 U.S.C. 4721(b)(1) to (6) and the ANSTF charter, each Federal agency appoints its own representatives to the ANSTF. The co-chairs (Fish and Wildlife Service and National Oceanic and Atmospheric Administration) invite state agencies and other governmental entities to recommend individuals to serve as ex-officio members. Note: In

the section listing committee members, Federal and ex-officio members who are statutorily mandated (and thus have no fixed term of appointment) have been given an "Appointment End Date" that matches the "Expected Renewal Date" for the charter. The appointment dates for ex-officio members who hold 3-year terms initially reflect their first term; once they go beyond their first 3-year term, the appointment dates reflect their total time as part of the ANSTF.

## Designated Federal Officer

### Susan Pasko Executive Secretary, Aquatic Nuisance Species Task Force

Committee Members	Start	End	Occupation	Member Designation
Ballard, James	04/20/2007	05/17/2019	Gulf States Marine Fisheries Commission	Ex Officio Member

Zajicek, Paul	07/14/2016	07/14/2019	National Aquaculture Association	Ex Officio Member

**Number of Committee Members Listed: 39**

## Narrative Description

Consistent with the requirements of the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (NANCPA), the ANS Task Force helps the U.S. Fish and Wildlife Service (Service) support and fulfill its mission by focusing on ANS issues through coordination with many other affected entities at the Federal, regional, state, tribal, and local levels. The ANS Task Force helps the Service to develop, approve, and implement the overall ANS Program as well as its projects and activities. The ANS Task Force is a focal point for information about ANS, activities to prevent their introduction into and spread within North America, and efforts to control them. It encourages and facilitates cooperative efforts to address nationally significant ANS problems and concerns.

## What are the most significant program outcomes associated with this committee?

Checked if Applies

Improvements to health or safety	<input type="checkbox"/>
Trust in government	<input type="checkbox"/>
Major policy changes	<input type="checkbox"/>
Advance in scientific research	<input checked="" type="checkbox"/>
Effective grant making	<input type="checkbox"/>
Improved service delivery	<input checked="" type="checkbox"/>
Increased customer satisfaction	<input checked="" type="checkbox"/>

Implementation of laws or regulatory requirements

Other

### Outcome Comments

Under NANCPA, the ANS Task Force is the only multimember organization legislatively mandated to coordinate ANS activities on a national scale. The ANSTF has refreshed the brand standards and website of its Stop Aquatic Hitchhikers! campaign, and is currently working to expand the website to include an interactive portal for partners to share outreach materials. A primary role of the ANSTF is to support the development and implementation of state/interstate ANS management plans and species management and control plans. In June 2018, the approval of the Nevada State Aquatic Invasive Species Plan brought the total number of approved state and interstate ANS Plans to 44. In response to the recommendation in the Government Accountability Office Report on Aquatic Invasive Species (GAO-16-49), the ANSTF has developed a tracking mechanism to measure progress toward its strategic goals and help meet statutory requirements. The information collected is being compiled into an Annual Report to Congress that details progress made on the ANSTF Strategic Plan.

### What are the cost savings associated with this committee?

Checked if Applies

None

Unable to Determine

Under \$100,000

\$100,000 - \$500,000

\$500,001 - \$1,000,000

\$1,000,001 - \$5,000,000

\$5,000,001 - \$10,000,000

Over \$10,000,000

Cost Savings Other

### Cost Savings Comments

The coordinating mechanism provided by the ANSTF has helped avoid duplicative efforts and their associated costs, as well as leverage available resources at many levels (Federal, state, tribal, and local). Estimating the avoided costs of unperformed activities is not feasible.

**What is the approximate Number of recommendations produced by this committee for the life of the committee?**

### **Number of Recommendations Comments**

For FY 2018, there were a total of two recommendations: 1) Approval of the revision of the Nevada State Aquatic Invasive Species Plan ; and 2) the need to hold a conference call in the fall of 2018 to discuss further revision for the ANS Task Force Strategic Plan for 2019 - 2024.

### **What is the approximate Percentage of these recommendations that have been or will be Fully implemented by the agency?**

95%

### **% of Recommendations Fully Implemented Comments**

While not every operational aspect of the approved plans and protocols have been implemented due to resource constraints, these are all ongoing activities that relate to the plans' implementation. Funding has been provided this FY to support ANSTF-approved state/interstate ANS Management Plans and support select ANSTF-approved species management and control plans.

### **What is the approximate Percentage of these recommendations that have been or will be Partially implemented by the agency?**

4%

### **% of Recommendations Partially Implemented Comments**

The Department of the Interior's advisory committee review required postponing the 2017 Spring and Fall ANS Task Force meetings, which delayed completion of some action items, including development of the 2016 Report to Congress and development of the revised ANS Task Force Strategic Plan. These documents were reviewed at the June 2018 meeting and are currently being refined for approval at the next ANS Task Force meeting.

### **Does the agency provide the committee with feedback regarding actions taken to implement recommendations or advice offered?**

Yes ☒ No ☐ Not Applicable ☐

### **Agency Feedback Comments**

Feedback is provided through the semi-annual ANSTF meetings (or webinars), as well as via frequent telephone and email communications from the DFO to the members between meetings. The DFO also maintains a committee website, listserve, and weekly communications newsletter.

**What other actions has the agency taken as a result of the committee's advice or recommendation?**

Checked if Applies

Reorganized Priorities	<input checked="" type="checkbox"/>
Reallocated resources	<input checked="" type="checkbox"/>
Issued new regulation	<input type="checkbox"/>
Proposed legislation	<input type="checkbox"/>
Approved grants or other payments	<input checked="" type="checkbox"/>
Other	<input type="checkbox"/>

**Action Comments**

While no new legislation has been proposed by the Service as a result of ANS Task Force recommendations, ANS program priorities, resource allocations, grant approval, and regulatory efforts are directly influenced by the recommendations. Field level projects are focused on implementing recommendations contained in the ANS Task Force-approved management/control plans and guidelines, and Service funds are allocated to support implementation of state/interstate ANS Management Plans. In FY 2018, funding was provided to support implementation of 43 approved state/interstate ANS management plans (The Nevada Plan was not approved until June 2018, thus not eligible for this funding cycle) . The Western Regional Panel of the ANSTF, in collaboration with the U.S. Fish and Wildlife Service, the National Association of Attorneys General, Oregon Sea Grant, and the National Sea Grant Law Center also continued its efforts to engage partners from the 19 western states, interstate organizations, and Federal agencies to establish clear legal and regulatory approaches and opportunities for ANS abatement and reform, including an action plan to minimize the expansion of invasive mussels through watercraft movements in the western United States.

**Is the Committee engaged in the review of applications for grants?**

No

**Grant Review Comments**

The committee does not review grant applications. However, agencies, such as the Service, that comprise the ANS Task Force, take the committee's recommendations into account in their grant processes.

**How is access provided to the information for the Committee's documentation?**
